## Layflat Cover 210x210

Place your design within **'Artwork' layer** and delete **'Guide' layer** once finished. PDF must be exported as a spread containing all three pages placed together.

*Failure to remove guide layer will result in template printing over artwork design.*

### Please ensure:

- Colour: CMYK (RGB will be converted)
- Fonts: Embedded or converted to outlines
- Image Resolution: 300dpi or higher
- Crop marks and 3mm bleed are included
- Accepted format: PDF (one file)

**Finished Size** - This is the finished size of the product once trimmed.

**Safe Area** - We recommend keeping text and images out of the grey area, remaining in white box.

**Wraparound** - Please extend your artwork into this section. Anything within this area will be used as a wraparound for the casing of the cover.

## How To Assemble Your Cover

1. Choose the **Spine** pages of this document (page 2).
2. Under the Pages tab select  **Edit Page Size > Custom** and **match the width** to the size provided by our **spine calculator**.
3. Under the Pages tab **attach the Spine** and **Front Cover** to the **Back Cover** using the **drag and drop** option.
4. **Add your design** to the template's **'Artwork' layer** and **export your PDF as a Spread**.

KEEP IMPORTANT TEXT AND IMAGES OUTSIDE OF THIS AREA
